

AI video security for manufacturing

Protect employees and operate on a whole new level with AI-powered video security.

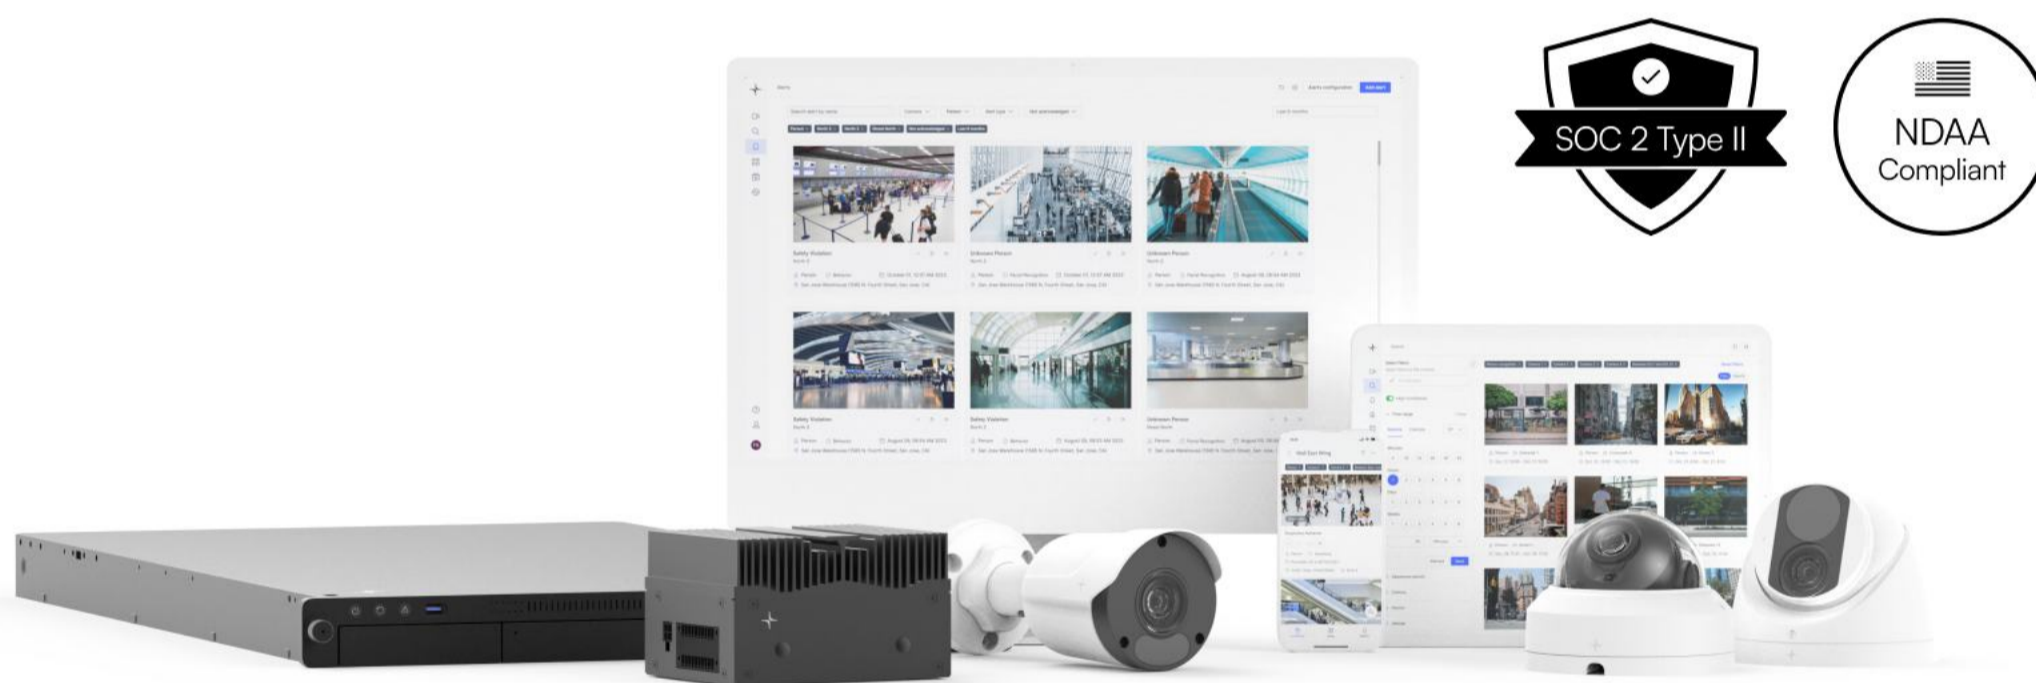

Missing hardhat and vest

Meet the all-in-one Lumana platform

Modern video security meets next-generation AI

Cameras

Enhance existing cameras or use Lumana cameras covered by a lifetime warranty.

Core

AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

VMS+

Manage multiple locations from a single platform with modern video management software powered by AI.

Monitor from anywhere

Access Lumana to monitor your sites from any browser or mobile device.

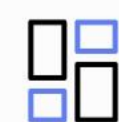

Real-time AI alerts

Notifications for missing PPE, forklift speeding, near-miss accidents, and more.

Find footage in seconds

Layer search parameters to filter footage and instantly find what you need.

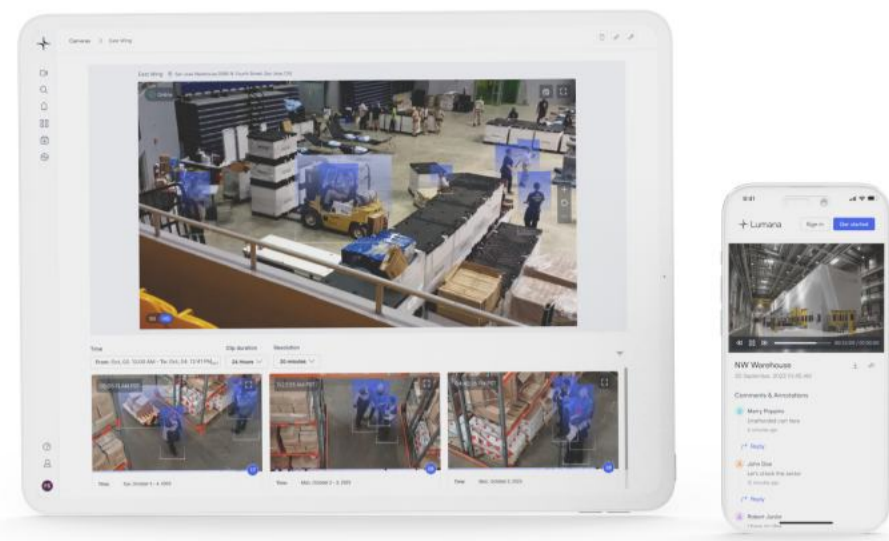

Intelligent dashboards

Capture live data from video and quickly visualize security and operational trends.

Manage site safety from a single pane of glass

Remotely manage your security and operations from one platform and use industry-leading AI to obtain greater visibility with less manual work.

 Missing product identified

Turn safety issues into coachable events

Create alerts using natural language for potential safety violations and transform issues into proactive employee training opportunities.

Accurately detect unusual events in real-time

Self-learning AI optimizes based on your environment to enable faster, more accurate, and more predictive event detection capabilities.

Integrate with external systems for enhanced visibility

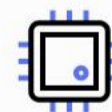

Index footage for pallet ID, barcode scans, and more. Connect to any third-party system to unlock advanced video search capabilities.

Futureproof architecture with automatic updates

Standard lifetime warranty for complete peace of mind

Self-learning AI for a tailored security experience

Dedicated onboarding, training, and support

Improve safety and operations with AI
